

**Health and Safety Advisory: Long Gone Farms LLC  
 (dba Steel City Meds Medical Dispensary)**

**April 17, 2023** - The Colorado Department of Revenue (DOR), in conjunction with the Colorado Department of Public Health and Environment (CDPHE), is issuing a Health and Safety Advisory due to the identification of potentially unsafe levels of Total Yeast and Mold and Aspergillus found on Medical Marijuana flower (bud/shake/trim) produced by **Long Gone Farms LLC (doing business as Steel City Meds Medical Dispensary)**. The CDPHE and DOR deem it a threat to public health and safety when marijuana is found to have Total Yeast and Mold or Aspergillus levels above the acceptable limits established in [Colorado Marijuana Rule 4-115](#).

In addition, the DOR has also identified potentially contaminated Harvest Batches of Medical Marijuana, produced during the same date range as the confirmed contaminated batches, that were not submitted for testing in accordance with [Colorado Marijuana Rule series 4-100](#). These contaminated and potentially contaminated Harvest Batches have been sold by Medical Marijuana Stores between June 1, 2022 and March 9, 2023.

Patients who have these affected products in their possession should destroy them or return them to the store from which they were purchased for proper disposal. Patients who experience adverse health effects from consuming the product should seek medical attention immediately and report the event to the Marijuana Enforcement Division by submitting the [MED Reporting Form](#).

All affected marijuana has a label affixed to the container that, at a minimum, indicates the license number of the Regulated Marijuana Business that cultivated the marijuana and the Harvest Batch number assigned to the marijuana. Consumers should check the label of their Regulated Marijuana flower (bud/shake/trim) for the following license number(s) and Harvest Batch numbers.

**Medical Marijuana Cultivation License # 403-01096**
